PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building real-world web applications using Next.js, TypeScript, Node.js, and PostgreSQL. Skilled in designing scalable backend systems, implementing authentication, and developing clean, responsive user interfaces.

SKILLS

Frontend: React, Next.js, TypeScript, Tailwind CSS

Backend: Node.js, Express.js, Prisma

Database: PostgreSQL, MongoDB

Tools: Git, GitHub, Postman, Vercel

Soft Skills: Problem Solving, Communication, Adaptability, Time Management

PROJECTS

TutorByte — Full Stack Web Application

[Live](#) | [Front-end](#) | [Back-end](#)

An online platform where students can find tutors, book sessions, and manage learning schedules.

Key Features:

- Tutor availability & scheduling system
- Booking system with session tracking
- Role-based user system (Student / Tutor / Admin)
- Secure authentication system

Technologies Used: Next.js, TypeScript, Node.js, Prisma, PostgreSQL

QuickPlatter — Full Stack Web Application

[Live](#) | [Front-end](#) | [Back-end](#)

A full-stack food ordering platform where users can browse meals, place orders, and track delivery with role-based dashboards.

Key Features:

- JWT-based authentication & role-based access (User / Provider / Admin)
- Meal management system with CRUD operations
- Order tracking with status flow and history
- Responsive UI with dark/light mode support

Technologies Used: Next.js, TypeScript, Node.js, Express.js, Prisma, PostgreSQL, Tailwind CSS

Certificate Application Management System

[Live](#) | [Front-end](#) | [Back-end](#)

Final Year Academic Full Stack Web Application

A role-based web application designed to digitize and streamline the academic certificate application process with multi-step approval workflows.

Key Features:

- Role-based access for Student and multiple approval authorities
- Online certificate application submission with status tracking
- Built approval, rejection, and resubmission workflows to reduce manual processing

Technologies Used: React.js, TypeScript, Tailwind CSS, Node.js, Express.js, MongoDB, JWT

EDUCATION

B.Sc. in Computer Science and Engineering (CSE)
City University, Bangladesh

2022-2026

COURSES

Complete Web Development Course Level 1 & Level 2
Programming Hero

LANGUAGE

Bangla (Native)

English (Intermediate – improving daily)
